OUR STORY

Where Gifting Meets Thoughtfulness

AvaGifts began at AvadheshCo with a simple thought: a gift is more than what you give; it is what you make someone feel.

What started with finding thoughtful gifts for employees, clients, and special occasions has grown into AvaGifts, a place where corporate, personalised, festive, lifestyle, and everyday gifting come together.

We believe the best gifts are not necessarily the biggest or the most expensive. They are the ones that feel considered, create joy and strengthen relationships.

And then there's Piku, our cheerful penguin and gifting companion. Curious, caring, social, and always ready to discover something special, Piku represents the spirit behind AvaGifts: thoughtfulness, togetherness, curiosity, and community.

AvaGifts -

Because at the heart of every gift is a simple human gesture: you thought of someone, and you chose to make them feel special.
